

ETH WEEKLY DEVOTIONAL

**October 2024
WEEK FIVE**

IT'S A NEW SEASON

For the month of October we have taken the time to discover what season of life we are in. We began by acknowledging our natural season of Fall/Autumn. In this final week of October let's review.

Winter – a time of reflection, stretching
Spring – re-emergence, planting
Summer – spiritual & personal development
Fall/Autumn – harvest

I think it is safe to say that as a society we have lost touch with the seasons. We keep to the same routine, diet, lifestyle throughout the year which creates an imbalance in our lives. Like the seasons of nature, there are also personal seasons in life. Keep in mind although we experience natural seasons of life at the same time we do not experience personal seasons together

Without the ability to accurately discern the season you are in, you will miss many opportunities. With an awareness of the season you are in, you will be able to step into both new spiritual truths and a greater ability to flow in the power of God. Enjoy and embrace the season you are in because it will change. Be ready to accept the season that you are about to enter. Remember...we cannot change the seasons, but we can surrender to God allowing Him to change us. Seasons are not in our control, however, our actions are. Proper action in each season is necessary for the harvest God has planned for us.

Those too lazy to plow in the right season
will have no food at the harvest. Proverbs 20:4 NLT

PRAYER

*Dear Lord, Thank you for allowing me to experience the seasons of life. Seasons that will grow me drawing me close to you as I reflect, plant, develop and reap all that you have planned for my life. In Jesus name!
Amen*
